MK Curriculum

Designed by MOE curriculum specialists and educators with experience in early childhood education and primary school curriculum

Anchored on our **belief** that children are **joyful, curious, active and competent learners**

Guided by key teaching and learning principles in **MOE's Nurturing Early Learners Framework**

Distinctive Singapore flavour for children to learn in meaningful contexts

Strong emphasis on holistic development and learning of two languages through two flagship programmes HI-Light and Starlight (EL & MTL) Programmes

MK Curriculum

The two-year MK curriculum is intentionally designed to ensure that our children are ready to move on to primary school and for life-long learning.

Develops **ownership of learning, joy of self-motivated learning**, confidence and positive dispositions towards learning

Ensures continuity in pedagogy
e.g. Use of shared-book approach (SBA) in both Starlight (EL) and Stellar (P1-P3)

Develops **responsibility, acceptable behaviour, focus and self control**

Centre programmes **reinforce key knowledge, skills and dispositions** covered in flagship programmes & nurture positive learning dispositions

Puts at the forefront **values, social and emotional competencies and learning dispositions &** focuses on **holistic development** to ensure children are ready to move to primary schools, and lay the foundation for lifelong learning

MK Curriculum

At MK, we believe in **developmentally-appropriate teaching and learning practices** while ensuring **readiness for learning in primary school and beyond.**

Developed hand
(about age 7)

5-year-old

For example, MK children are given ample opportunities to strengthen their finger muscles, hand-eye coordination and core body strength. They are also given many meaningful opportunities to practise writing and copying. However, hand maturation and dexterity takes time and is dependent on each child's physical development (e.g., whether hand skeletal structure is fully developed to shape letters properly). Hence, it is not expected for all children to be able to perfect their penmanship skills by the end of K2.

When we go according to children's pace and provide them with meaningful contexts to learn and practise, they will have the joy of learning and be better able to draw connections and apply their learning appropriately.

We encourage parents to support your children's learning based on their pace of development!

HI-Light Programme

Designed to support **holistic development** of children by nurturing in them:

- Values, social and emotional skills, positive attitudes to learning and executive functioning skills
- Knowledge and skills across the following five learning areas through an **integrated approach**:
 1. Aesthetics and Creative Expression
 2. Discovery of the World
 3. Health, Safety and Motor Skills Development
 4. Language and Literacy
 5. Numeracy

Starlight Literacy (EL and MTL) Programme

Designed to nurture **early childhood bilingualism** in English and Mother Tongue Language (Chinese, Malay, Tamil)

- Focuses on developing children's interest in language learning, listening, speaking and early reading and writing skills
- Uses Big Books, songs and games set in the local context to make learning fun and meaningful
- Provides opportunities for children to communicate in EL and MTL with confidence and be aware of local tradition and customs
- Encourages families to be involved in activities to enthuse children in language learning

Weeks of Wonder (WoW)

Designed to promote **collaborative, self-motivated learning**

- Children will work together with their friends to investigate topics that interest them that culminates in a WoW project at the end of each term.
- Through the projects, they learn decision-making, collaborative, communication and problem-solving skills.
- In a year, children complete 2 WoW projects in English and 2 in their Mother Tongue Language.
